Salem, Tamil Nadu, India

SUMMARY

I'm an aspiring software engineer passionate about learning, building impactful technology, and solving meaningful problems. I enjoy turning ideas into practical solutions while continuously exploring new technologies to expand my skills. I'm committed to continuous growth, value collaboration and lifelong learning, and strive to create technology that makes a positive impact. Above all, I aspire to give back to society in gratitude for all it has given me.

EXPERIENCE

 **Member Technical Intern**
Zentropy Technologies
01/2026 - 05/2026 Chennai, TN
Successfully completed a 5-month Software Development Internship, gaining practical experience in backend engineering and distributed systems. Worked with Python, Apache Kafka, gRPC, and Protocol Buffers to develop scalable, event-driven applications and service communication solutions. Acquired hands-on exposure to distributed ID generation, real-time message streaming, microservices communication, and modern backend architecture principles.

 **In-plant Trainee**
National Informatics Center, MeitY
06/2024 - 06/2024 Chennai, TN
Gained exposure to secure e-Governance Infrastructure through the National Knowledge Network (NKN) and NIC initiatives, while developing foundational knowledge in OS, Full-Stack Development, Networking, AI & ML, Computer Ethics, and Open-Source Technologies.

EDUCATION

 **B.E. - Computer Science & Engineering**
Anna University - MIT Campus
10/2022 - 05/2026 Chennai, TN
CGPA
8.27 / 10

 **Class XII (State Board)**
Green Park Matric Hr Sec School
06/2021 - 05/2022 Namakkal, TN
%
92.8 / 100

 **Class X (CBSE)**
Emerald Valley Public School
02/2019 - 05/2020 Salem, TN
%
91.2 / 100

CERTIFICATIONS

Machine Learning Specialization - Coursera, Stanford - Online
Learned supervised and unsupervised learning, neural networks, model training, and machine learning system development.

AWS Academy Cloud Foundations – AWS
Gained knowledge of AWS Cloud fundamentals, architecture, core services, pricing, and security.

Course on Python & Java - CADD LIVEWIRE, Salem
Completed comprehensive training in Python and Java, covering core programming concepts and application development.

AI and Developer Productivity – LinkedIn Learning
Learned AI fundamentals and techniques to improve developer productivity.

INTERESTS

 **DBMS**

 **Deep Learning**

 **ML**

 **DSA**

PROJECTS

Cross-Modal Attention Framework for Risk Prediction Using Vital Signs and Clinical Notes
12/2025 - 04/2026
Built an AI-driven healthcare risk prediction framework using multimodal ICU data from the MIMIC-III dataset. Utilized BioBART and BioClinicalBERT with a Cross-Modal Attention mechanism to fuse vital signs and clinical notes for accurate patient mortality risk prediction.

Heart Murmur Detection from PCG Signals
01/2025 - 04/2025
Developed an AI-based heart murmur detection system using phonocardiogram (PCG) signals from the CirCor DigiScope dataset. Processed raw audio to extract MFCC features and built a multivariate time series classification pipeline using PatchTST, Multi-Head Self-Attention, ResNet18, and an XGBoost ensemble to accurately detect heart murmurs.

AI-Enabled Web Chat Application
10/2024 - 12/2024
Built an intelligent web-based chatbot using Java Servlets, JSP, and JavaScript, integrated with the Azure OpenAI API to process over 7,000+ real-time user interactions. Implemented a custom client-server architecture enabling fast, interactive AI-driven conversations.

SKILLS

Python	C	Java	SQL	JS	DSA
ML	DBMS	OS	CN	Unity	
Photoshop	Canva	MS Office			

ACHIEVEMENTS & RESPONSIBILITIES

 **Placement Representative (PR)**
Coordinated placement activities, facilitated student-placement cell communication, and supported recruitment drives.

 **Unity 2025 Hackathon - Finalist**
I'm one among the Finale Attendees of the Unity 2025 Hackathon conducted by Naan Mudhalvan

 **Member of Association Of Computer Technologists (ACT)**
Contributed to event management through video editing, poster design, and organizing technical events, workshops, and symposiums.

 **National Service Scheme (NSS) Member**
Actively contributed to NSS initiatives through weekly cleaning activities, event organization, poster design, cultural anchoring and participation in a two-week NSS Special Camp.

 **Taekwondo Club Member**
Active member of the School Taekwondo Club, with achievements up to Green Belt
